

Fundraising Dashboard - New Image Upload Feature

We are pleased to announce that your event participant fundraisers can now associate images to fundraising profiles. They can add a team images if team fundraising is involved and also their own personal image on the Personal Fundraising page. As you know each participant is given the option to create a custom pledge page. Participants can edit their photo and write a unique message to greet their donors. This customization tool allows for fundraisers to ensure that the fundraising tools reflect their personality and goals.
