

## Visa Checkout is now an option available on Running Room Race Registration site.

With Visa Checkout, you skip the hassle of re-entering your credit or debit card number each time you register online. Instead, you pay with one, simple login. With Visa Checkout all credit cards can be registered for convenience and security. Participants can then chose which credit card they want to apply to the race registration payment. The best thing is - no typing of credit card numbers - when Visa Checkout is used. This is a great convenience to participants who are looking for security and speed at the checkout process.

A screenshot of the Running Room Race Registration site checkout page for the BMO Okanagan Marathon 2015 - 10K. The page features a navigation bar with links for Start, Profile, Questions, Options, Confirm, Checkout, Receipt, and Donations. The main content area is titled "Event Registration Checkout" and includes a "Help" button. Below the title, it specifies "Registration for BMO Okanagan Marathon 2015 - 10K" and shows the "Total Amount" as "\$ 56.70 CAD". Under "Payment Option::", there are two radio buttons: "VISA Checkout" (selected) and "Credit Card". Below this, there are input fields for "Credit Card Number:", "Expiry (MMYY):", and "Credit Card Verification Number:". To the right of the credit card number field are logos for VISA, MasterCard, and American Express. A "PLEASE NOTE" box states: "The billing on your credit card statement will appear as a purchase from RUNNING ROOM CANADA." At the bottom of the form is a blue "Complete Registration" button.

Thanks,

**Running Room Events Team**
