

Race Budget Tool - The Budget feature allows Race Directors to manage the entire event budget on-line. The key features of the budget is that all event revenue is automatically updated to the budget as a person registers on-line or if the entry is manually keyed in by the RD. This budget also keeps track of all expense fields providing you with an up to date profit picture. The ability to edit all expense categories or add completely new categories is available and you can change the currency multiplier.
