

New Age Limitations Feature

Race Directors now have the ability to have events with age limitations.

For example if you have a youth event open to participants who are between the age of 10 - 17 we can set the event to only accept applicants between that age group. In the admin area there are fields where we can enter the age restrictions:

Display Age	Age on Race Day
Age Restrictions	Min: 10 Max: 17

Race directors can select 3 options for age display:

Age on Race day – This is the default and the most common date to base the age restriction on.

Age on December 31st

Current Age

If the applicants is not between the age restriction the registration page displays a red error message indicating the applicant does not fit the age group restrictions.

Youth 10 to 17: Oct 25/16 - Registration

May we display this applicant in the event confirmation list and pledge search results page?:

Yes No

[Confirm And Continue ▶](#) [Reset Form](#)

If you have an event that you would like to have an age restriction added let our events admin team know and we can get it added for you

Thanks,

Running Room Events Team
