

Inactivating Events

In the event that you need to shut down race registration early Race Directors can do this in Race Administration.

You can also update the Event Closed Message to notify online applicants.

- Select the event you need to edit from the tear down menu.
- Select Event form. Toggle the Active switch to no.
- Select Update on the bottom of the page.

Administration : Event Applicants / Entry Form : Event Form

Event Form

Warning: Any changes that you make to this form will take place on the live entry form . If you are unsure of the change please contact us using the 'ask a question' link above on your tool bar.

Event ID: 46282

Active: Yes No
