

Ace your Race

Race Applicant Edit Feature - Did you know that we allow Race Applicants the ability to log back in later and change his or her applicant information? Allowing applicants to edit their registrations saves race directors time correcting any errors with the applicant data.

Edmonton Marathon 2016 - Sunday, August 21, 2016							
21.1K	No			Yes			
5K Run/Walk	No			Yes			

If the registrant has a Running Room profile that they used to register for your event, the registration confirmation will appear on their athlete dashboard. They can select the event on their dashboard to update or correct registration information. A handy feature for applicants especially if your race has a team event where a captain enters multiple members.

Race Directors can set deadline that applicants can make edits to their race registration. Once the applicant edit cut-off date is reached they cannot edit their registration.

Thanks,

Running Room Events Team
