

## New Fundraising Milestone Notices.

When one of the milestone fundraising goals has been reached a message is sent out to the fundraiser giving them notice of the goal obtainment. This is an automated process and controlled by the fundraiser via their fundraising dashboard in the notification section. Team captains will also receive these emails when team fundraising hits the milestones.

### Automatic emails will send when participants reach certain milestones:

- 25% fundraising goal achieved
- 50% of fundraising goal achieved
- 75% of fundraising goal achieved
- 100% congratulations on reaching your goal

### Example:

Subject: 25% Milestone reached!

Body: Hi Aiden,

You have reached 25% of your goal by raising \$50 with a goal of \$200!

### Fundraising Dashboard Tools:

#### Notifications

Receive emails when a donation is made in your name:  Yes  No

Receive emails when I've reached a fundraising milestone:  Yes  No
